Distillo Product Features:

- **Suspended Solids**

Effectively removes suspended solids like algae, decaying organic matter, fine clay, and silt, improving water clarity.

- **Sediment Removal**

Effectively eliminates sand, dirt, rust, and other sediments, ensuring clean water throughout your home.

- **Odour & Taste**

Removes organic compounds, unpleasant odours, and bad tastes, leaving water fresh and enjoyable.

- **Organic Compounds**

Filters out detergents, herbicides, insecticides, aromatic solvents, and humic substances, protecting your health.

- **Chemical Removal**

Removes harmful chemicals like chlorine, amines, phenol, and chlorophenols for safer, purer water.

- **Stainless Steel**

Features a durable 304 stainless steel cover and bracket, providing rust and corrosion resistance.
